FOREVER'S END

THE LAST GIRL ON EARTH... IS NOT ALONE.

a JC Schroder film forever's END

synopsis

Six years after an apocalyptic event killed her family and seemingly everyone else on earth, a lone girl on the verge of insanity is forced to question everything she has ever known when a strange man suddenly appears at her door. *The last girl on earth... is not alone.*

Starring Lili Reinhart (*Law&Order: SVU*, *Surviving Jack*, *The Kings of Summer*), Warren Bryson (*Finale*) and introducing Charity Farrell in an award-winning role. *Forever's End* is an award-winning new apocalyptic thriller from Director-Producer-Cinematographer JC Schroder, co-produced by Michael Katchman and featuring an original score by multiple award winning composer-orchestrators Douglas Romaine (*Buffy The Vampire Slayer*, *Captain America*, *The Avengers*) and Douglas Edward (*One Tree Hill*, *Chuck*).

director statement

Forever's End is a post-apocalyptic psychological thriller, a film that plays out with unexpected twists and turns in an untraditionally lush post-apocalyptic world. I'm a big proponent of creating believable, complex characters and placing them within a unique world. What I love about this film is that what's truly happening under the surface of these characters can be just as compelling as the story you're seeing unfold on screen. The film truly is detailed, precise, and as much drama as it is psychological thriller; it plays as if it were a mystery, everything you're seeing is in question and my hope is that once the credits roll, you'll want to go back again and again to pickup on the subtle details, the hints that point to what's really behind the story.

While I've been blessed with the opportunity to work on many projects both big and small, studio and independents, *Forever's End* is my feature directorial debut, and as such it will always have a special place in my heart. Over the past two years, I've had the joy of working with a small, but incredibly talented group of actors and filmmakers who have given their all to make this film a reality, and I think it shows.
